Issue 4
October 17, 2011

Winter is coming, do you have the Wiring Diagrams you need to keep your customers warm and on the road?

These are simply the best wiring diagrams you can own! Clearly labeled and easily identifiable, these color wiring diagrams won't leave you in the dark. All of our Wiring Diagrams are standardized and contain Domestic and Import models. No need to try to remember numerous codes for the same color. Whether you're working on an import or a domestic vehicle you will be able to quickly know what colors you are working with. Our simplified Wiring Diagrams also include written component locations.

Did you know we have 3 Wiring Diagrams?

Engine Management Systems: Contains most under-the-hood components.

Body Systems, Audio/Visual, Climate Control: Contains Anti-Theft, Central Locking, Power Windows, Washers & Wipers, Factor Audio, Factory DVD/Navigation, Climate Control, Manual Air Conditioning, and Heater Controls

SRS/Airbag & ABS: Passive Restraint, Air Bags, Seatbelt Pre-tensioners, Automatic Shoulder Belts, Passive Headrests, ABS functions including Traction & Stability Controls

[Click here for more details and samples!](#)

Wiring Diagrams are only available on DVD.

Part Numbers:

11-CDX640 - Engine Management Systems (EMS)

11-CDX650 - Body Systems, Audio/Visual, Climate Controls

11-CDX660 - SRS Airbag, Anti-Lock Brake Systems

When produced, our wiring diagrams are always one model year behind the current model.

Did you know...
